Product type: Personal eye-protection device combined with a respiratory protection device to protect against particles.

Models: **FilterSpec® with FFP2 Mask.**
FilterSpec® Pro with FFP2 Mask.
FilterSpec® with FFP3 Mask.
FilterSpec® Pro with FFP3 Mask.

Technical Specifications: Harmonized European Standard EN 149:2001+A1:2009.
Harmonized European Standard EN 166:2001.

EN 149 classifications: FFP2 NR (single shift use only).
FFP2 NR D (single shift use only with clogging option).
FFP3 NR (single shift use only).
FFP3 NR D (single shift use only with clogging option).

EN 166 classifications: All Models:
Optical class 1.

EN 166 options: **FilterSpec®:**
Protection against high speed particles, low energy impact, at extremes of temperature, symbol FT.
FilterSpec Pro®:
Ultra violet filtering, symbol 2C-1.2, protection against liquid droplets, protection against large dust particles, protection against molten metal and hot solids, protection against high speed particles, medium energy impact, at extremes of temperature, symbols 349BT

Product assessments

The assessments for the respiratory protection element of the products were based on BS EN 149:2001+A1:2009, the English language version of EN 149:2001+A1:2009, respiratory protective devices – filtering half masks to protect against particles, both documents incorporating Corrigendum dated July 2002.

The assessments of the eye protection element of the products were based on BS EN 166:2002, the English language version of EN 166:2001 - personal eye-protection.

Basic descriptions

FilterSpec Spectacle and FFP2/3 Mask model

The model consists of a particle filtering mask to which a pair of eye protection spectacles can be attached by means of a mask/eye protection holder.

The particle filtering mask is a single shift use moulded valved mask with a retention system comprising of two adjustable elasticated straps with plastics securing clips. The mask/spectacle holder is attached to the mask via the mask's retention system anchorage fittings. The spectacles have a one piece plastic frame, a one piece plastic lens and plastic side arms.

The particle filtering mask of the product can be used on its own but the spectacles can only be worn in conjunction with the filtering mask and the mask/spectacle holder.

The mask/spectacle holder and the spectacles are re-useable items.

FilterSpec Pro-goggle and FFP2/3 Mask model

The model consists of a particle filtering mask to which a pair of eye protection goggles can be attached by means of a mask/eye protection holder.

The particle filtering mask is a single shift use moulded valved mask with a retention system comprising of two adjustable elasticated straps with plastics securing clips. The mask/goggle holder is attached to the mask via the mask's retention system anchorage fittings. The goggles have a plastic goggle body, one piece plastic lens and a two piece elasticated securing strap with a nylon fastening clip.

The particle filtering mask of the product can be used on its own but the goggles can only be worn in conjunction with the filtering mask and the mask/goggle holder.

The mask/goggle holder and the goggles are re-useable items.
